We've just taken delivery of some excellent compact second hand PCs. These little beauties are Hewlett Packard DC7600 all-in-one systems. The PC itself is a low profile thin case that sits directly behind the monitor on a stand. When you are sitting in front of the included 17" LCD screen it you can't even see the PC behind it. Space saving, no cable mess, neat and tidy it's perfect for home, the office or the kids and the performance is great for all of the above. Priced at only \$399 each they won't last. Read on for the full specs and a picture.

Specs:

Pentium 4 3.0 Ghz CPU
1GB RAM (memory)
80GB Hard Drive
DVD/CDRW Combo Drive
8 USB ports
Windows XP Home
Keyboard, Mouse
HP L1706 17" LCD monitor
30 day warranty
